## THE LATEST.

At yesterday's session of the lower house of the Russian Parliament, from which all the Radical representatives were conspicuously absent, Premier Stolypin made a formal announcement of the discovery of the plot to kill the Emperor, Grand Duke Nicholas and himself and a resolution expressing the great joy of the House at his majesty's escape from the danger and the deepest indignation at the criminal conspiracy was unanimously adopted.

Superman, the three-year-old colt of James R. Keene's stable, won the Brooklyn Handicap yesterday afternoon on a track fetlock deep in mud. Superman covered the distance of one mile and a quarter in 2:09, beating Beacon Light, who was second, by a length. C. E. Durnell's five-year-old Nealon took third money. Go Between and Butting, favorites, ran indifferent races.

Much depends upon which of the five opposing candidates succeeds in organizing the convention at Henderson today to nominate a Democratic candidate for Railroad Commissioner in the First district. A coalition against Finn on the part of the opposing candidates is expected. Confidence was expressed last night in all camps.

County Judge Shely, at Lawrenceburg, has ruled he has no power to alter an order made at a former session of court, fixing June 11 as the date for a local option election in that city. Liquor men asked him to postpone the city election till July 27, when the county votes. An injunction suit is threatened in the matter.

Judge Landis, of the Federal Court at Chicago, yesterday fined F. A. Holbrook, the American Seating Company and the A. H. Andrews Company \$5,000 each and nine other furniture companies amounts ranging from \$500 to \$2,000 for violation of the anti-trust laws.

Resolutions strongly denouncing work of night riders and calling upon all friends of the planters in the fight on the trust to help put an end to violence were adopted at a meeting of the dark tobacco growers' organization of Christian county at Hopkinsville.

All testimony in the trial of Judge Hargis for alleged complicity in the Cockrill assassination at Jackson has been given and arguments will be begun at Lexington to-day. The case will go to the jury about noon to-morrow, it is thought.

All efforts to bring about a settlement of the Evansville street railway strike have so far been unsuccessful. Cars were attacked yesterday in various parts of the city and all the lines suspended operations at 4 o'clock in the afternoon.

Clarence Lebus, of Cynthiana, has written to Congressman Gaines, of Tennessee, going fully into the effort of the Burley Tobacco Society to secure legislation favorable to the interests of the growers of Kentucky and Tennessee.

Following the assassination of three police officials serious rioting occurred yesterday in Odessa, the Black Hundreds running amuck in the streets and mercilessly beating the citizens, particularly Jews.

The Haywood trial at Boise probably will be halted to-day for lack of jury material. Only nine of the special veniremen remain, and the Sheriff will be sent to bring in fifty more men.

Uncle Sam's only woman diplomat, Mrs. Margaret A. Hanna, for a number of years Private Secretary to Assistant Secretary of State Ade, will attend the peace conference at The Hague.

Nine heirs attending the sale of effects of the late John Smith, at Franklin, became ill of ptomaine poisoning after eating canned salmon. One is in a serious condition.

A merger of all the Kentucky subsidiary companies of the Chesapeake and Ohio railway will be announced at the directors' meeting of that road in Richmond, Va., to-day.

C. J. Norwood, of Kentucky, is among the State geologists who are in session in Washington, with a view to outlining the work of all the surveys for the field season.

The strike at the Lorain, O., plant of the American Shipbuilding Company is at an end. All the machine riveters and their helpers have returned to work.

The temperance question continues to be the chief topic of discussion among the 1,000 commissioners of the Northern Presbyterian general assembly.

The Government has decided to renew the cases against the so-called fertilizer trust before the United States District Court at Richmond, Va.

The longshoremen's strike at Montreal has been settled.

## MAY BE FIELD AGAINST FINN

Opposition At Henderson Tries To Get Together.

Much Depends Upon Organization of Convention.

Confidence Expressed By All Five Candidates.

MUCH MIDNIGHT OIL BURNED.

Henderson, Ky., May 20.—[Special.]—Five men, each of whom believes, or says he believes, that he will be nominated for Railroad Commissioner in the First district, are in Henderson to-night, working wires and digging, tooth and nail, for votes, from some 300 odd Democrats, delegates to the convention, which will be called to order here to-morrow afternoon. Each of these five men has friends who are doing all in their power to land him the nomination. Four of the five have been working here all day with headquarters in the Hotel Henderson. The fifth was not here until to-night, but he had friends who were acting in his place.

When Mott Ayres, chairman of the District Committee, calls the meeting to order at 2 o'clock to-morrow afternoon, the final race will be on and one of the most interesting political conventions in Kentucky in several years will begin. When it will end is a problem. No candidate has enough instructed votes to win the nomination, and it seems, likewise, that no candidate has enough votes to organize without making a combination with some other candidate, and this will involve further complications.

No Coalition Expected.

Efforts to combine against Laurence Finn and prevent him from obtaining the temporary control of the convention thus far have not been successful, although the leaders have been working hard all day to reach this end. Whether or not Bunk Gardner, Herman Southall, George W. Landrum and McDaniel Ferguson, or any three of them can effect a combination against the leading man in the race is the question which is to be solved between now and 2 o'clock to-morrow afternoon. That the combination will be made is the general belief, as it is thought to be good politics for the minority to combine against the man at the top and try to pull him down. Ferguson did not get to Henderson until 10 o'clock to-night, and everything was held up pending his arrival. Immediately after he came the powers went into consultation. The Finn men say that the opposition cannot effect any combination which will give them control even of the organization, and they seem to be confident. On the other hand, Ferguson's supporters claim that he will be able to organize, though they do not say how it is to be done.

Hard To Control Men.

By combining with Southall and Gardner or Southall and Landrum, Ferguson would be able to organize the convention and would leave Finn out in the cold. The trouble seems to be in the ability on the part of the candidates to control their instructed strength. The Hopkins county delegation, while instructed for Southall, is composed of Finn's personal friends and supporters and the delegation may be found in the Finn column when the count is taken on the organization, although, of course, the vote will go to Southall after the nominating speeches have been made. In Henderson county, Finn will have seven votes in the organization, although Southall will get the full vote for Commissioner.

The Hardin county delegation is a puzzle which no one seems to be able to solve. The delegation is uncommitted, but nobody seems to know certainly how it stands. It is said that seven of them will be for Finn and will vote with him in the organization. Scattered about in the other delegations are others who are said to be for Finn and willing to vote for him in the organization of the convention.

Fight Hard To Organize.

Recognizing the importance of the temporary organization all the candidates are fighting hard for the control and seem to be unwilling to give up anything to any of the others. This has resulted in confusion and the plans of the leaders seem to be just as far from a settlement as ever before. If Finn loses the temporary organization he will lose the contests in three counties and Ferguson will be greatly strengthened. If Finn wins, he will pile on some more votes and will cut off several that now are counted for Ferguson.

In any event, the race seems to be between Finn and Ferguson, although Southall is not out of the running entirely and Gardner has not given up. Landrum's friends do not look blue, either. It may simply develop into a general scramble and in the event of a deadlock, a dark horse may win, although this is unlikely.

Before dawn it is believed a combination will be effected against Finn and that he will have to fight it out alone, with a fair chance of winning even then. Finn will be put in nomination by Thomas Thomas, of Bowling Green, and Southall will be put in nomination by J. T. Hanberry, of Hopkinsville.

Seething Mass of Men.

Preliminary work has been in progress here all day to-day and is still going on at midnight, with a seething

mass of men in the hotel corridors, where all interest now centers. The candidates and their friends have been getting their lines out and maneuvering for positions, ready for the break to-morrow. The delegates began coming in about noon to-day and since then every train has brought in large or small delegations, until the town is pretty well filled with delegates and others attracted by the political battle of to-morrow.

Southall, Gardner and Landrum were here early this morning and Finn came on the noon train. Ferguson remained in Louisville until the late train to-night. Each had his headquarters where the delegates were entertained and consultations were held. This afternoon it looked like a real, old-fashioned Democratic convention, with scores of well-known Democrats present. They came from all over Western Kentucky and it looked as though every leader in this section of the State was present. Everybody knew everybody else and the delegates spent the afternoon renewing old acquaintances and talking over old times, not troubling their heads much about the race to be run to-morrow. With the leaders, however, it was different.

Situation Much Mixed.

Few conventions have shown a worse mixed condition, especially as regards second instructions. Five candidates are in the race, the largest number of instructed votes being 148 for Finn and the smallest, thirty-three, for Gardner. Where these votes will go (Concluded On 2d Page, 4th Column.)

## MUST GATHER IN ANOTHER VENUE

JURY MATERIAL ABOUT EXHAUSTED AT BOISE.

SIXTEEN MEN EXAMINED AND EXCUSED FOR CAUSE.

ONLY NINE TALESMEN LEFT.

Boise, Idaho, May 20.—It seems inevitable that the Steunenberg murder trial must be halted again to-morrow to permit the gathering of another special venire of talesmen. When the session to-day ended only eleven out of twenty peremptory challenges had been used, and only nine of the veniremen gathered a week ago remained uncalled. The remaining nine will hardly furnish jury for a day's work, so some time to-morrow Judge Wood will probably adjourn the trial for at least a full day, and send Sheriff Shad Hodgkin forth in quest of fifty additional talesmen.

Joseph Chinn, of Chair No. 6, challenged by the defense, and William McGuffin, of Chair No. 6, challenged by the State, were the men of the old crowd who were down to-day. George Powell and Lee Scott were the two men who passed muster to-day.

Sixteen men were examined and excused for cause. Most of them had deep seated opinions as to the guilt or innocence of Haywood, and went down for bias challenges from the State. Two range of questions against capital punishment, and two others had scruples about hanging a murderer on circumstantial evidence.

The examination wearily droned its way over the same old ground, although the defense has narrowed its range of questions. It asked nothing to-day about the Roosevelt letters and the Taft speeches, but devoted much attention to possible local prejudices and the existence of general prejudice against Socialists.

T. D. Canavan, an attorney of Boise, joined the defense as associate counsel to-day. He makes the eighth of counsel for the defense participating in the trial.

The trial will go on at 9:30 o'clock in the morning, and in the future that will be the hour of convening, and adjournment will be at 4 o'clock.

## HIT BETWEEN EYES BY LIGHTNING BOLT

SUCH STATED TO HAVE BEEN EXPERIENCE OF LAD IN LEXINGTON HOSPITAL.

Lexington, Ky., May 20.—[Special.]—Claude Williams, the nine-year-old son of J. M. Williams, deputy sheriff of Powell county, has had the remarkable experience, it is stated, of being struck squarely between the eyes by a bolt of lightning and surviving to tell the tale. The boy was brought to St. Joseph's Hospital here to-day. The only serious injury he appears to have suffered is that his eyes are terribly swollen, and it is feared that he will lose his sight. His face is also badly burned.

Yesterday afternoon while the boy, with his sister and stepmother, were milking the cows at their home, near Stanton, a storm came up and they were hurrying through their task, when there came a vivid flash of lightning, and a bolt from it, it is said, struck the boy and knocked him senseless to the ground. He soon revived, however, and as soon as possible he was hurried to the train and brought to this city for treatment. The bolt is believed to have shot off from its target to a wire fence a few feet away, and this is believed to have saved his life.

Twenty-three People Injured.

Hillsboro, Ga., May 20.—A south-bound passenger train on the Central of Georgia railway went into the ditch near here about noon to-day and twenty-three persons were injured, none, it is reported, seriously. The train was loaded with delegates, mostly from Athens and vicinity, to the Odd Fellows convention at Columbus.

## HARGIS CASE NEARS CLOSE

Leader's Fate To Be In Jury's Hands To-Morrow.

Brother of Accused One of Last Witnesses.

Denies All Knowledge of Plot To Kill Cockrill.

BREAKS INTO DENUNCIATION.

Lexington, Ky., May 20.—[Special.]—Testimony was closed this evening in the trial of James Hargis for the murder of James Cockrill, at Jackson, in 1902, and the instructions of the court will be given to-morrow morning, after which the arguments in the case will be begun.

There will be six speeches, three on each side. For the prosecution, Commonwealth's Attorney Allen and A. Floyd Byrd will speak, while Attorneys George Webb, George Hunt and E. P. Farrell will argue for the defense. It is estimated that four of the speeches will be completed during the day's session to-morrow, and unless there is a night session, which is not considered probable, the remaining two speeches will be delivered Wednesday morning and the case will be given to the jury about Wednesday noon.

As the Court of Appeals has once ruled on the instructions in this case, little or no argument is expected over the charge to the jury, in which Judge Parker will closely follow the ruling of the Court of Appeals.

Alex. Hargis Bitter.

Alex. Hargis was the best-known of several witnesses who appeared for the defense to-day. He is himself under a similar indictment to that against his brother, James, for the murder of Cockrill. He stated that he was in Mt. Sterling, where he had gone from Winchester, to buy a pair of mules, on the day Cockrill was shot. He denied any knowledge of any plot on the part of himself or his brother James to bring about Cockrill's assassination, and broke into a violent denunciation of the statements of Mose Feltner as "damnable lies," when he was stopped by the court, with the injunction to confine his remarks to answering questions.

On cross-examination, he admitted that he contributed money for the defense of Jett and Britton, and also that he had signed the bonds of Smith and Abner, explaining the latter action on the ground that the prosecution was trying to ruin him and his brother by perjured testimony, and it was his duty to himself and brother to keep on friendly terms with Smith and Abner.

Robert Abner, Thomas and Lige Gay testified that they had seen John Abner near his home in Perry county, thirty miles from Jackson, on the day Cockrill was shot. This was to contradict the testimony of John Smith that he, Abner and Curt Jett had done the shooting. King Ford testified that he was with Judge Hargis upstairs in the Hargis store when the shooting occurred, and that both went to the window, but neither had a gun.

Thinks He Saw Gun in Window.

In the rebuttal, which closed the testimony in the case, the prosecution scored a point by introducing R. M. Begley, who, after scrutinizing Judge Hargis closely, testified that he believed that Hargis was the man he saw talking to John Smith in Frankfort. Smith had stated that it was during a conversation in Frankfort that Hargis first urged him to join the plot to murder Cockrill and Dr. Cox, and Hargis in his testimony had flatly denied that he ever saw Smith in Frankfort.

## MERGER OF LINES

TO BE ANNOUNCED AT C. AND O. MEETING TO-DAY.

Believed To Be the Forerunner of Other Stock and Bond Issues and Extensions.

Cincinnati, May 20.—[Special.]—A merger of all the Kentucky subsidiary companies of the Chesapeake and Ohio Railway Company will be announced at a meeting of the directors at the main offices at Richmond, Va., to-morrow.

The merger in addition to the various Kentucky companies will include the Covington Elevated Railroad Bridge and Transfer Company, which owns the bridge and a mile of trestle and approach track in Cincinnati. A total sum of something like \$62,700,000 of outstanding stock is represented in the consolidation, which is believed to be the forerunner of other stock and bond issues and extensions of lines. These lines are involved: Big Sandy railway, White House to Elkhorn City, Ky., 77 miles; C. and O. railway in Kentucky, from Big Sandy river to Covington and from Denton to Lexington, 253 miles; Kinlock and Freestone railroad, Garrison to Carter, 20 miles; Covington and Cincinnati Elevated Railroad Bridge and Transfer Company, two miles, A

number of the bonds are on deposit with the Central Trust Company of Cincinnati, and the directors to-day left for Richmond to attend the meeting.

The merger has been under negotiations for months on behalf of J. Pierpont Morgan and Kuhn, Loeb & Co.

## THREE RESIDENCES AND SMALL SHOP DESTROYED.

Fire, Starting In Unknown Manner, Also Threatens Hotel At New Castle.

New Castle, Ky., May 20.—[Special.]—Fire which started in an unknown manner in the kitchen of William Thomas' residence about 9 o'clock this evening, destroyed that residence and the adjoining ones of Joel Head and Mrs. Georgia Antill. All the houses were two-story frames. The flames spread also to M. McMillon's shoe shop, a small building, destroying it, and threatened the Ridgeway Hotel, next door. By a hard fight the latter building was saved. The total loss is put at \$3,000; covered by insurance. Household effects in the residences were also lost.

## SHUT OUT BECAUSE CHILD BECAME BLIND

TOOK YEAR TO PROVE CITIZENSHIP—WORRY CAUSES MOTHER'S SUICIDE ATTEMPT.

Paduach, Ky., May 20.—[Special.]—Broken in health from being the victim of the immigration laws, Mrs. Louis Viviana attempted suicide this morning at her home, 907 North Fourth street, by shooting herself in the head. She may not recover.

About two years ago she went back to Italy for a visit with her children. When she attempted to return she was deported from New York on account of the blindness of one of the children. She was detained in Europe at least a year before she succeeded in proving that the child was a native of America and therefore not subject to the immigration regulation as to diseased foreigners. On account of the mental worry and privations she endured during her long separation from her husband, Mrs. Viviana has since been in frail health and subject to fits of melancholia. She is about thirty years of age and an unusually handsome woman. She has five small children.

## NINE PERSONS ILL OF PTOMAINE POISONING

HEIRS ATTENDING SALE AT FRANKLIN, KY., STRICKEN AFTER EATING SALMON.

Franklin, Ky., May 20.—[Special.]—A sale to-day at which the effects of the late John Smith were disposed of at public auction, was attended by nine heirs from Warren and Muhlenberg counties, who took dinner from baskets brought by the ladies. Among other food, a can of salmon was served and the entire party was taken ill. Dr. Douglass, who was summoned, pronounced the trouble ptomaine poisoning. The sufferers are J. M. Herrington, Woodburn; the Rev. F. E. Lewis, Greenville; Thomas Perkins, wife and four children, of Warren county, and Frank Smith, Bowling Green. Mrs. Perkins is in a serious condition, owing to a slight organic heart trouble.

## PLANTERS SCORE NIGHT RIDERS' WORK

GROWERS OF CHRISTIAN COUNTY UNQUALIFIEDLY CONDEMN VIOLENCE.

Hopkinsville, Ky., May 20.—[Special.]—At a meeting to-day of the Christian county organization of the dark district Planters' Protective Association, vigorous resolutions were adopted condemning unqualifiedly "night riding" and violence of any character in the farmers' fight on the tobacco trust, and calling on the officers and members of the association to use every possible effort to put an end to any lawlessness in this section and bring the guilty party to justice.

Chairman Whit Radford reported that Christian county had pledged 10,000 acres of tobacco to the association.

## STROMBOLI ONCE MORE CAUSING GREAT TERROR.

Messina, Sicily, May 20.—The Stromboli and Mount Etna volcanoes again are active, especially Stromboli. Deafening explosions are of constant occurrence, and the population of Stromboli Island have been thrown a second time into a condition of terror. Prof. Platania has been sent to Stromboli by the Government to study the phenomenon, to report on the danger to the population, and to suggest precautionary measures.

Lawyer Shoots Politician. Tulsa, I. T., May 20.—Haskell B. Talley, a young lawyer and politician, yesterday shot B. F. Pettus, cousin of Senator Pettus, of Alabama, and a leader in Oklahoma Democratic affairs. The shooting occurred on a principal street corner and was witnessed by a dozen persons. It is alleged that ill feeling existed between the men for several years. Pettus at one time was a candidate for State Superintendent of Public Instruction. He will recover.

## TERRORISTS RUN AMUCK

Serious Rioting In the Streets of Odessa.

Follows the Assassination of Three Police Officials.

More Than One Hundred Jews Seriously Injured.

RIOTOUS ATTACKS UNCHECKED

Odessa, May 20.—Following the assassination of three police officials here to-day serious rioting occurred, and at 8 o'clock in the evening the Black Hundreds were running wild through the streets mercilessly beating people, particularly Jews, more than a hundred of whom were seriously injured soon after the disorders began. The police apparently remained passive spectators of the disorders. No arrests were made, and the Black Hundreds continued their work of revenge unchecked.

The tragedy which led to the rioting was openly enacted. While the superintendent of police and a number of other officials were in the Central Police Bureau this morning two men and a girl entered the building, deposited an internal machine in the building and went away. The machine exploded almost immediately afterward, killing the Chief of Police and two chief detectives of the city. They were blown to pieces and seven other persons were seriously injured. The police pursued, fired at, wounded and captured the two terrorists, but the girl who was with them, escaped. The leader of the terrorists was subsequently identified as a man named Therhoff.

The two detectives killed were bitterly hated by the terrorists, one of them for participating in inciting the outbreak of 1905 here, and the other, who was nicknamed "The Hangman," because he had tortured political prisoners.

## PILOT AGAINST NICHOLAS.

Subject of Resolutions In the Lower House of Parliament.

St. Petersburg, May 20.—Previous to the opening of the session of the lower house of Parliament to-day a resolution expressing the great joy of the House at Emperor Nicholas' escape from death at the hands of those who plotted his assassination, and the deep indignation at the recent criminal conspiracy, so fortunately frustrated, was unanimously adopted. The reading of the resolution called forth hearty applause, but the expected monarchist demonstration did not take place. The Social Democrats, Social Revolutionists, part of the Group of Right and others were absent from the House when the resolution was presented and adopted.

In formally announcing the discovery of the plot, Premier Stolypin said that not only was the Emperor's life aimed at, but the plot was intended to assassinate Grand Duke Nicholas Nikolaevitch, president of the Council of National Defense, and himself.

Some time after the resolution of sympathy with the Emperor had been adopted, Deputy Shasky, a lawyer of Khabarovsk, in the Far East, a member of the Group of Right and others, announced that his party had no connection with the plot and insinuated that it really existed, it was due to police provocation.

## Russia's Peace Delegation.

St. Petersburg, May 20.—The list of Russia's delegates to The Hague peace conference was completed to-day. In addition to M. Neidoff, the Ambassador to France, Prof. DeMartens, Imperial Councillor of State, and M. Tcharykoff, the Russian Minister at The Hague, whose appointments were announced April 12, Russia will be represented by M. de Proxor, Russian Minister to the Argentine Republic, Brazil, Maj. Gen. Yermoloff, the military attaché at Berlin; Capt. Behr, the naval attaché at London, and Col. Outchinnikov, the Russian Naval Academy.

## TRAINMEN DENOUNCE SPEAKER CANNON.

Believe He Is Hostile To Working Classes and Protest Against His Re-election.

Atlanta, Ga., May 20.—Among the resolutions adopted to-day by the Brotherhood of Railway Trainmen was one denouncing the action of Speaker Cannon, of the National House of Representatives in his attitude toward labor and opposing his re-election. After reciting that "we have reason to believe that Joseph G. Cannon has as Speaker of the National House of Representatives, used the influence and power of that great office to defeat the passage of legislation sought by the railroad employees and other working classes both in the way of appointing members of the House Committee to which such legislation was referred to men who were known to be hostile to its enactment, and by the use of threats, intimidation and force, compelling members to vote against our legislation, contrary to their own convictions," the resolution says:

"Resolved, That we hereby denounce said actions of Cannon as arbitrary, autocratic and not in keeping with American principles of Government or fair play, and we solemnly protest against his re-election to this high and honorable office, upon which he has brought reproach, as we believe his re-election would prejudice and render impossible of fair consideration by the House, legislation looking to the protection of railroad employees and other classes of labor."

Another resolution opposes the indiscriminate stream of immigrants now flowing into this country, particularly Asiatics.

## MORE POWER FOR MODERATORS

Governmental Change Causes Spirited Discussion.

Committee's Report Adopted By Presbyterian Assembly.

Temperance Controversy To Come Up To-Morrow.

"A CATHOLIC HIERARCHY."

Columbus, O., May 20.—After a spirited discussion, during which it was charged that an attempt was being made to build up a Catholic hierarchy, the Presbyterian General Assembly to-day adopted the report of the special committee on administrative agencies referring to the Presbyteries four overtures relating to changes in the form of government of the church, which provide for the establishment of executive commissions by the Presbyteries, Synods and General Assembly, of which the moderators of the respective organizations shall be the head. If a majority of the Presbyteries approve these overtures, the committee will report to the next General Assembly a proposition for the Executive Commission of the General Assembly.

## STATUS CHANGED.

SUPREME COURT HAS UPSET WAR DEPARTMENT RULINGS.

May Have Invalidated Proceedings of Many Courts-Martial of Volunteer Soldiers.

Washington, May 20.—There is grave apprehension at the War Department that the Supreme Court of the United States has invalidated the status of every regular army officer who has held at the same time a volunteer commission, and has also invalidated the legality of the proceedings of every court-martial of a volunteer officer or enlisted man on which has sat an officer holding both regular and volunteer commissions.

The court last Monday handed down an opinion declaring invalid the court-martial of Lieut. Lewis E. Brown, a negro volunteer officer, who was tried and dismissed from the service in Cuba. The court-martial was invalidated because an officer of the regular army, who was also a volunteer officer, sat on the court. Under the decision Brown will be entitled to draw his pay until the date of the mustering out of his regiment and the expiration of his commission.

War Department officials regard it as the logical conclusion to be drawn from the court's decision that the findings of every court-martial on which sat a regular army officer who was also a volunteer commission, and which tried a volunteer officer or enlisted man, are invalidated, and claims for pay to the end of the term of the commission or enlistment may be made.

The basis of the court's decision is that a regular army officer holding a volunteer commission at the same time is not a volunteer, but a regular army officer. The War Department has always held exactly the reverse.

## CRUEL TREATMENT

ALLEGED IN DIVORCE SUIT OF MRS. GOULD.

Attorney Shearn Says Case Will Be Tried In Open Court—Publicity Desired.

New York, May 20.—Clarence Shearn, counsel for Mrs. Howard Gould, said to-day that Mrs. Gould's suit for permanent separation from her husband had been filed in the Supreme Court, but the papers in the case have not been served on Mr. Gould. Mr. Shearn said that Mrs. Gould brought suit on the ground of cruel and inhuman treatment covering a period of more than three years. The lawyer also declared that the suit will be tried in open court, adding:

"Mrs. Gould desires that full publicity be given to it, and she refuses to spare anyone engaged in the plot against her."

District Attorney Jerome announced to-night that he would visit Police Commissioner Bingham to-morrow in connection with the Howard Gould case. There has been considerable public discussion as to what part the police have taken in connection with the suit for permanent separation which counsel for Mrs. Howard Gould said to-day had been filed against Mr. Gould.

## BAGLEY STATUE UNVEILED AT RALEIGH.

Raleigh, N. C., May 20.—Twenty thousand people to-day witnessed the unveiling of the monument and statue erected in Capitol square by the people of the United States in memory of Ensign Worth Bagley, of the United States navy, killed by a Spanish shell off Cardenas, on May 11, 1898. Confederate, Federal and Spanish veterans, national guard troops and school children formed the parade. The addresses were by Congressman Richard P. Hobson, the hero of the Merrimack, and Capt. Victor Blue, of the navy.

## Places Blame On Miners.

Charleston, W. Va., May 20.—The coroner's jury investigating the Whipple mine explosion of May 1, which resulted in fifteen deaths, met at Scary, Ky., to-day and returned a unanimous verdict exonerating the mine management and placing the blame on the miners who fired the overcharged shot in violation of regulations, causing dust explosion. All members of the jury were miners.

## MORE POWER FOR MODERATORS

Governmental Change Causes Spirited Discussion.

Committee's Report Adopted By Presbyterian Assembly.

Temperance Controversy To Come Up To-Morrow.

"A CATHOLIC HIERARCHY."

Columbus, O., May 20.—After a spirited discussion, during which it was charged that an attempt was being made to build up a Catholic hierarchy, the Presbyterian General Assembly to-day adopted the report of the special committee on administrative agencies referring to the Presbyteries four overtures relating to changes in the form of government of the church, which provide for the establishment of executive commissions by the Presbyteries, Synods and General Assembly, of which the moderators of the respective organizations shall be the head. If a majority of the Presbyteries approve these overtures, the committee will report to the next General Assembly a proposition for the Executive Commission of the General Assembly.

The report of the committee was presented at the morning session, but action was not taken until the closing hour of the afternoon. The recommendation for the establishment of the Executive Commission met with vigorous opposition. The Rev. Dr. Doremus, of Michigan, declared that it was an attempt to set up a Catholic hierarchy, and the Rev. Dr. Alexander T. Kerr, of Pennsylvania, denounced it as born of the spirit of clericalism and a blow at the basic principles of the church.

The proposition found warm supporters, however, and a strong defense was made by the chairman of the committee, the Rev. Dr. James D. Moffatt, president of Washington and Jefferson University. He declared that the proposed change in the form of government was in perfect harmony with the principles of the church, and it did not mean a concentration of power, but rather an execution of power.

The plan necessarily extends the powers of the Moderator, who would act as the representative of the church as occasion may require, visit the synods, presbyteries and other bodies as may be

## DEATH CLAIMS JUDGE McCANN

Head of Police Court Succumbs To Illness.

Prominent Figure In Local Politics For Years.

Rose From Office of Constable To Bench.

THE FUNERAL TOMORROW.

Judge John McCann, Judge of the Police Court of Louisville, died of a complication of diseases at 3:10 o'clock yesterday afternoon at his home, 1134 Sixth street, after an illness of many months. For several days the death of Judge McCann had been expected at any time, and when the end came both Mrs. McCann and their only daughter, Miss Ada McCann, both of whom have been in attendance constantly since Judge McCann's illness were at his side.

As soon as the death of Judge McCann was known at the City Hall, Mayor Barth ordered the flag over the building lowered to half-mast and throughout the building many offices doors were draped in mourning. This morning at the session of Police Court the local Bar Association will pass resolutions.

Judge McCann had been under a physician's care for almost a year, and although everything possible to cure him and prolong his life was done, nothing seemed to be of any benefit.

Early last autumn the Judge left the Police Court bench on frequent occasions to take short rests, and on January 19 he presided at the session of court for the last time. A few weeks later he was ordered to Florida for a prolonged stay and returned at Easter apparently much improved.

Bedfast Many Weeks.

His return to this city was at an unfortunate time, however, and almost immediately after his homecoming miserably winter weather kept him confined at his home. So bad was the weather that his physician ordered him not to leave the house. In a short time he began to grow weaker and weaker.

For many weeks past he has been bedfast, but not until about two weeks ago were there indications that he would not recover. Since that time, though, his death has been almost momentarily expected.

During his illness friends of Judge McCann were most anxious about his condition, and each day there were scores of inquiries. It was known that he could not live and since his death yesterday afternoon hundreds of friends have expressed their grief and sympathy for Mrs. McCann and Miss McCann. Last night a large number of Judge McCann's more intimate friends were at the home.

Funeral To-morrow Morning.

The funeral services will be held at 9:30 o'clock tomorrow morning at the residence and at 10 o'clock at St. Louis Bertrand church. Burial will be in St. Louis cemetery. Pallbearers will be selected to-day and from among Judge McCann's more intimate friends.

The death of Judge McCann brings to an end a very remarkable career. If there was ever a self-made man he was one. For the past thirty-seven years he has been in public office constantly and his political record was without a single blemish.

Native of Louisville.

Judge McCann was born June 27, 1838, and was the son of James McCann, who lived at Ninth and Walnut streets. James McCann was for several years engaged in the grocery business, but never accumulated any of the world's goods. Judge McCann was the son of John, who was forced to earn a livelihood for himself early in life. Judge McCann received his education in the Catholic schools of Louisville. His first work was in a foundry, but finding this was too hard for him, with poor remuneration, he secured a position with the Ohio river bridge company. He continued for three years.

After leaving the river, Judge McCann again went into the foundry and was employed by the Granger and Co. former Mayor Charles F. Granger's father then being at the head of the firm. He became a favorite with the elder Granger and was one of his most trusted employees. After two years and a half with the firm, Judge McCann concluded that politics was a more inviting field for a young man, though his opportunities were not equal, and he was an unequalled success, much of which was due to his popularity and his devotion to his friends. In all his political life, so it is said of him, he was always ready to return a favor. This resulted in a large and loyal following and kept him in office for over thirty years.

Former State Senator.

Judge McCann was elected Constable in 1871. He served in that capacity for four years, and was elected Magistrate the first time in 1875. He was re-elected Magistrate several times from Louisville and served for four years. He was re-elected in 1891, but resigned his seat in the Senate in 1890 because of ill health. Judge McCann preferred to surrender his seat rather than give up the office of Magistrate.

Judge McCann continued to hold the office of Magistrate until 1901, when he was elected to the office of Police Judge of the city of Louisville. He was re-elected to that office in 1906. In the capacity of Police Judge, he has been the friend of all classes of people, the good side of Judge McCann was often in evidence.

Magistrate's Office Popular.

It was as Magistrate that Judge McCann was best known to the people of Louisville. In that capacity he had much to do with the handling of the affairs of Jefferson county for twenty-five years. He took a pride in the advancement of Louisville and Jefferson county and was always found on the side of progress. His office as Magistrate on Fifth street, between Jefferson and Green, was known for many years. During them busy

JUDGE JOHN McCANN.

ness was not rushing Judge McCann's office. He was frequently the scene of friendly chats among the business and professional men of the city.

Personally, Judge McCann was well liked. He had many warm friends. The needy never went away from him empty-handed. He had many a friend who would help him to relieve their wants. Judge McCann always took a deep interest in the affairs of the city and was a great contributor to their support.

Judge McCann married Mary E. Parker, daughter of Charles Parker, of Louisville, in October, 1871. She is a native of New Haven, Ky., having removed to Louisville when small with her parents. Besides his wife, Judge McCann leaves one daughter, Miss Ada McCann, to whom he was a most devoted father. Charles McCann, who is connected with the Louisville and Nashville railroad, is a brother of Judge McCann, and he is also survived by two sisters, Mrs. Belle Cronan and Mrs. Lewis Jacob, of this city.

SOME TOBACCO FACTS.

(Houston Post.)

It takes 6,000,000 acres to grow the world's tobacco.

Italy has the reputation of manufacturing some of the strongest smokes in the world.

A good cigar will burn slowly and equally; the weed that smolders up one side is of inferior quality.

The largest cigars come from the Philippine Islands, some of them being eighteen inches in length.

The Piped Bull Inn at Islington is said to have been the first house in England at which tobacco was smoked.

Louisville, the Kentucky center, though not so well known as Richmond, is a certain criterion of the cigar's contents.

In Tasmania no person under thirteen years of age is permitted to smoke.

Physicians, chemists and physiologists agree that smoking before maturity is reached always leads to a waste of nerve power and brain force, and thus squanders life by weakening the very center of strength.

Many believe that cigars marked with the initials of the manufacturer are of a higher quality than those without.

The color of the ash is not an accurate guide, but the ash of a cigar has a black "lip," a thin dark line around the edge nearest the mouth, it is proof positive of an inferior cigar.

## SOUTH AND EAST

Suburban Property Recommended For Annexation.

COUNCIL'S REVISION COMMITTEE PREPARES ORDINANCE.

FOLLOWS NEARLY NEW LINE AS ORIGINALLY PROPOSED.

ATHERTON PLACE LEFT OUT.

A substitute ordinance to take the place of the one originally introduced providing for the annexation of territory south and east of Louisville will be reported favorably by Dr. T. J. Yager, chairman of the Revision Committee of the lower board, at a meeting of the General Council tomorrow night.

With but few exceptions the substitute ordinance will provide for the annexation of practically the same territory east of the L. and N. road to the south as did the original ordinance. The only considerable difference between the two ordinances is the elimination in the substitute ordinance of "Campbell," a triangular piece of territory south of Douglas Boulevard that is largely taken up with truck gardens.

The line, instead of extending as far along the Bardstown road as was proposed by the original ordinance, will leave the Bardstown road and parallel Woodburn avenue at a point 1,000 feet south of Douglas Boulevard until it strikes the line proposed by the original ordinance. That part of Long avenue within the city limits may also be extended to Frankfort road, provided the substitute ordinance to be reported favorably by Dr. Yager passes.

# BROOKLYN HANDICAP

## WON BY THREE-YEAR-OLD

James R. Keene's Superman Beats Good Field In \$20,000 Eastern Classic.

## TOM HAYES' BEACON LIGHT RUNS SECOND.

Miller Holds Winner Back Until Well Into Stretch.

FAVORITES HANG IN TRACKS.

JACK ATKIN DEFEATS VOORHEES, GENTIAN AND OTHERS IN OPENING EVENT.

GREAT CROWD SEES RACES.

NEW YORK, May 20.—Through a series of cheering thousands, Superman, the sturdy three-year-old son of the great Commando, carrying the colors of James R. Keene, ridden by Jockey Miller, flashed under the wire the winner of the Brooklyn Handicap this afternoon over a course felloek deep in mud, at the Gravesend track.

Twenty-five thousand persons saw the mud-splashed Keene horse held back until the stretch and then sent out in front to win in decisive fashion from a field of eleven starters. Beacon Light, ridden by Jockey Lowe, was second, a length behind Superman, and Nealon, carrying the colors of C. E. Durnell, was third. Superman covered the course of a mile and a quarter in 2:09.

At the starting line the horses fretted and pruned, and at the drop of the flag Superman shot out in front, followed by Okenite and Go Between and a flying field in the mud and mire. Not wishing to see the pace in the heavy going, Miller held Superman in check, and Okenite, rushing up, took the lead at the quarter, with Superman, running in steady, even stride, close behind, and Beacon Light a short distance away. Butting and Go Between, the strong favorites of the race, hung in their tracks and fought it out with the others. Okenite was first at the half, with Superman surrendering the lead.

Since to Nealon and Beacon Light. The Keene horse never varied his machine-like stride and Little Miller held him in tight rein.

Into the stretch they raced, and Miller, touching Superman with whip for the first time, sent his mount in front. Okenite barely tried to follow, but gave up, while Beacon Light and Nealon, the only possible contenders, were whipped to a final burst of speed. Superman was in no danger, for his big, swinging stride carried him well out in front and he sped by the judges' stand an easy winner, with Beacon Light second, a length away, and Nealon third. There were cheers for the horse, a horseshoe of flowers for the jockey, a rush of the winners for the betting ring, and the three-year-old, the third in seven years to be won by a three-year-old, was over.

In the first race Jack Atkin was always close to the pace and came away in the stretch, winning by one length. Voorhees ran a good race and held the mud, beating Gentian ten lengths for the place. Eudora and Tony Bonero ran the distance in the second event to the stretch close together, Tony Bonero winning by a neck. Eudora, a donkey slightly at the end, but beat St. Valentine fifteen lengths for the place. In the third Starogwan held the race safe all the way, and won easily by two lengths. Alanda ran his race, and beat George Considine an add, and beat George Considine an add, and beat George Considine an add.

## FIRST BOY EDITOR SCORES COMBINE

Paper Published in Philadelphia As Early As 1812.

THOMAS G. CONDIE, FATHER OF AMATEUR JOURNALISM.

JAMES M. BECK HAS DISCOVERED COMPLETE FILE.

DECLARES PUNISHMENT INADEQUATE TO FIT CRIME.

RECOGNIZES COMPARATIVE POVERTY OF SMALLER FIRMS.

THEY ALL PLEADED GUILTY.

Called 'JUVENILE PORTFOLIO'.

(New York Sun.)

James M. Beck, once Assistant Attorney General of the United States, amused himself when he was a boy by playing editor and running a small amateur magazine, issued whenever the editor wasn't too busy at other kinds of play. He has kept up his interest in juvenile editing and can generally be found at meetings of amateur journalists of the past who are not too busy to remember the enterprise of their youth. It was this interest that led Mr. Beck to discover the other day the complete file of the first boy editor's paper published in this country.

The finding of this file came by accident and confirmed a tradition that the first amateur journal was published in Philadelphia as early as 1812. Mr. Beck got the file at the sale of the library of Gov. Pennypacker of Pennsylvania, and an examination of it brought to light many things of general interest.

The first boy editor was Thomas G. Condie, and although he had been referred to as the father of amateur journalism, there was no record of this title until this file of his journal was found. He was born in Philadelphia in 1812, and his father, John Condie, was a printer. Mr. Beck's discovery of the Condie file was a surprise, for he had been looking for it for some time. The file was found in a box of old papers, and it was in the Condie file that Mr. Beck found the first issue of the 'Juvenile Portfolio'.

The 'Juvenile Portfolio' was a small paper, published weekly, and it was the first of its kind in Philadelphia. It was published by Thomas G. Condie, who was then a boy of about 15 years of age. The paper was published for a short time, but it was a success, and it was the first of many papers published by Condie.

Condie's paper was a success, and it was the first of many papers published by Condie. He was a boy of about 15 years of age, and he was the first boy editor in Philadelphia. His paper was published weekly, and it was a success. It was the first of many papers published by Condie, and it was the first of many papers published by Condie.

## FINANCIAL AND COMMERCIAL

MONETARY.

Monday Evening, May 21.—No material change was noted in the New York money market today. There was a fair inquiry for money in the local market. Rates were quoted at 6 per cent. Mails were heavy and counter transactions in volume, and altogether business was rather brisk.

New York exchange was quoted at 25c premium.

The report of the Clearing-house to-day was as follows:

Balance, \$2,400,000.00. Total, \$2,400,000.00.

The local currency market was a slow affair to-day. The weak tone of the New York market put a damper on the debasing investment demand.

The demand for Louisville Tractor stock was not very active. The stock was sold at the Stock Exchange at 101, but the close was par bid and 1/2 asked. East St. Louis and Suburban preferred was easy, being offered at 70 1/2. Louisville bridge was easy, being offered at 70 1/2. Louisville bridge was easy, being offered at 70 1/2.

The outside list of St. Louis United Railways securities was weak, caused by the City Attorney of St. Louis filing a suit against the North American Company and the United Electric Company. The St. Louis United Railways Company was not mentioned in the suit, and it was reported that the North American representative was not in the suit.

At the Stock Exchange for fifteen shares of Columbia Trust 12 1/2 was bid and 1 1/2 was asked. A bid of 12 1/2 was made for fifty shares of Louisville Bridge. Twenty-five shares of Louisville Gas were offered at 127. Louisville Tobacco Warehouse common was 60 and ten shares were offered at 61 1/2. Twenty-five shares of New Orleans common were offered at 40. One hundred shares of Louisville common were offered at 70 1/2. Louisville common was thirty-four shares offered at 101 and asked, thirty offered at 103, ten offered at 102 and par bid for thirty. Twenty shares of Savannah common were offered at 10. Fifty shares of Springfield were offered at 75. St. Louis United Railways common was closed at 101 1/2. St. Louis at 101 1/2, with no bid; the preferred at 98 1/2 to 99 and the 4s at 94 1/2 to 95 1/2. Kansas City Railway common was closed at 101 1/2. Chicago at 101 1/2 and 1/2 asked. Detroit sold in New York at 98 1/2. United Railways investment preferred sold at 94 1/2, and common at 94 1/2. St. Louis common at 101 1/2 and 1/2 asked. St. Louis common at 101 1/2 and 1/2 asked. St. Louis common at 101 1/2 and 1/2 asked.

The following are the latest bid and asked prices made for securities on the stock exchange:

**BALANCING HIS BOOKS.**  
The members of the Merchants and Manufacturers Association are well pleased with the business done in spring trade through the system of bringing Kentucky merchants to the city. Tickets were furnished merchants out-of-town to Louisville and return during the months of February, March and April. The season closed a few days ago and John J. Tolford, secretary of the association, is now engaged in balancing his books. He said yesterday that he could form no idea as yet as to the actual business done, but he was confident that on increase over last year would be shown in his report.

Traveling Salesmen Now Scouring Extreme South For Fall Orders—Prospects Excellent.

The members of the Merchants and Manufacturers Association are well pleased with the business done in spring trade through the system of bringing Kentucky merchants to the city. Tickets were furnished merchants out-of-town to Louisville and return during the months of February, March and April. The season closed a few days ago and John J. Tolford, secretary of the association, is now engaged in balancing his books. He said yesterday that he could form no idea as yet as to the actual business done, but he was confident that on increase over last year would be shown in his report.

Traveling salesmen are now in the South with full samples, and the wholesale merchants are confident that a good fall trade is in sight. Heavy purchases have been made by all classes of merchants. The business of furnishing transportation to merchants who want to come to market was open up again August 1 and continue through October. A leading wholesale merchant said yesterday that he expects to do more out-of-town business in Louisville this fall than ever before in the city's history.

"All reports from the South are favorable from a business viewpoint for a second trade this fall and winter. Although the season has been backward, things will adjust themselves and the purchasing public will be in shape for a big trade. The merchants in the extreme South are the earliest buyers, owing to the fact that it takes them longer to get their goods after making purchases. Louisville merchants are reaching out now and are getting into new territory every month of the year. Freight rates are being more equally adjusted and the rebate system having been done away with gives our merchants a far better chance. I am proud to say they are taking advantage of all opportunities and are spreading out."

WILL MISS FERRELL "MONKEY WITH A REVOLVER."

Tells How She Happened To Shoot Mrs. Sallie French In the Eye Sunday.

Her eyes red from much crying, Miss Edna Ferrell, of 212 Eighteenth street, yesterday afternoon told of how she had accidentally shot Mrs. Sallie French on Sunday afternoon at the home of Arthur Alvey, a brother of Mrs. French and a brother-in-law of Miss Ferrell. Miss Ferrell ended her story with:

"And I'll just bet that I never monkey with a revolver again."

Mrs. French is at St. Anthony's Hospital in rather a critical condition, but the belief is that she will recover. Her left eye was removed Sunday night, and unless blood poison sets in her physician is of the opinion that she will recover.

Miss Ferrell was arrested by Capt. James Kinney yesterday morning on a charge of shooting and wounding. Her arrest, as well as the unfortunate accident, had something to do with the tears, and although she was taken no further than the Seventh district station-house, where she was not put in a cell, the ordeal was most disagreeable, she said.

The arrest of Miss Ferrell by Captain Kinney was merely a "formal" affair, as it is believed that the shooting was accidental. Until Mrs. French is well enough to make a statement, however, it is probable that Miss Ferrell will be kept under bond.

**Morris Humes, In First Fight With Jacob Hepler, Said To Have Resorted To Use of Razor.**

Alleged to have broken an agreement for a fist fight with his rival for the affections of the same young woman and to have slashed him across the breast with a razor, Morris Humes, aged twenty-two years, was arrested by Patrolmen Reiss and Fox yesterday morning charged with maliciously cutting Jacob Hepler, of 2121 Preston street. Though Hepler's wounds are bad enough to need medical attention, the attending physician declares that his condition is not serious. The case was called in Police Court yesterday morning and was continued to Wednesday.

According to Hepler, he and Humes are in love with the same young woman and in order to find out who was to try to win the fair one first, they determined on the method of the big stick days, the survival of the fittest. They decided that on Sunday afternoon they would meet at a park at the end of Preston street and let their fists determine who was the best man.

Well, they met at the park and they fought, Hepler declares. He further alleges that he was proving himself to be the better man when Humes drew a razor and slashed him with several times with the result that his breast is now wrapped in bandages. He further alleges that his home in Stratton's addition. He declares that he cut Hepler in self-defense.

**PETITIONER IN BANKRUPTCY QUOTES DEFUNCT FIRM DEBTS.**

William S. Young, of Louisville, Was Associated With Wood & Bryan, of Montgomery, Ala.

A petition in voluntary bankruptcy was filed in the United States Court yesterday by William S. Young, of Louisville, who gave his occupation as that of a clerk. His liabilities amount to \$4,667.62, while his assets are given as \$15. The petitioner quotes the assets and liabilities of the firm of Wood & Bryan, of Alabama, defunct, of which he was a member. According to the schedule of liabilities, the firm of Winter, Loe & Co., of Montgomery, Ala., is the largest creditor, the firm of Wood & Bryan having purchased on credit merchandise to the amount of \$1,223.14. Wood & Bryan also purchased on credit from Grell Bros. Company, of Montgomery, merchandise to the amount of \$1,068.97. The Brundage & Banking Company, of Brundage, Ala., hold a note against the firm of Wood & Bryan for \$97.53 borrowed money. The other indebtedness ranges in amounts from \$50 to \$500.

**FUNERAL SERVICES HELD FOR DR. W. T. LEACHMAN.**

Simple services marked the closing of the brilliant career of Dr. William Leachman, Louisville's oldest practicing physician, at the funeral which was held from the Grace Episcopal church at 6 o'clock yesterday afternoon. The services were conducted by the Rev. E. Johnson, rector of the church, who made a short eulogistic address of Dr. Leachman. Nearly every pew in the church was occupied by the friends of the dead physician, while the family yesterday received many flowers and designs, attesting the esteem in which Dr. Leachman was held.

The pallbearers were: Col. W. B. Haldeman, Dr. William Cheatham, Dr. August Schachner, Richard Mechenhoff, R. T. Coleman and Dr. William Bailey. The burial was private.

**THE VALUE OF PERSONAL KNOWLEDGE**

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

**The Well Informed of the World.**

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

**A Knowledge of Forms, Knowledge of Functions and Knowledge of Products** are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

**Known Quality, Known Excellence and Known Component Parts** and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to worldwide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

**SOMEONE TRIES TO OPEN HEALTH OFFICER'S DESK.**

His Attempt Fruitless, But He Fixes Things So Dr. Allen Has An Hour's Work.

Someone tampered with Dr. M. K. Allen's desk at the City Hall Saturday afternoon, and as a result the Health Officer spent the greater part of yesterday morning in an effort to get into it. Whoever it was that attempted to break into the desk Saturday broke a key off in the lock and left it there. It was not until after Dr. Allen had worked for more than two hours with a pair of pliers that he succeeded in extracting the broken key. He has no idea as to the identity of the person who sought to open his desk, but has started an inquiry. He said yesterday that he was at a loss to know why anybody should attempt to pry into his private papers, as they are of value only to himself. Someone suggested to the Health Officer that the culprit might have been in search of a birth or death report, but Dr. Allen does not place much credence in that theory.

Dr. Allen and the clerks in his office left the City Hall Saturday at noon and did not return. It is supposed that the person who attempted to break into Dr. Allen's desk was in the building. The office door was closed at 4 o'clock, at which time it was closed and locked by the janitor.

**FLOWERS FOR DECORATION OF CONFEDERATE GRAVES.**

To Be Sent To Capt. J. S. Carpenter, Chairman of Committee Appointed For Purpose.

It is desired by the Executive Committee of George B. Elston Camp, U. C. V., that all flowers for the decoration of the Confederate graves next Saturday be sent to Capt. J. D. Carpenter, at Cave Hill, or to W. B. Humes, drug store, Baxter avenue and Broadway. The committee has appointed a committee of five to collect the flowers. The following chairmen were appointed to have charge of the day:

Master of ceremonies, Capt. John H. Leathers; Committee on Orator, Capt. John Weller; Committee on Flowers, Capt. James D. Thompson; Committee on Music, Capt. Andrew Broadus; Committee on Platform, D. Thompson; Committee on Organ and Chorus, Capt. Sam H. Buchanan; Committee on Minister, Capt. John C. Shuler; Ladies' Committee on Decoration, Mrs. Charles Sample; Ladies' Committee on Decoration, Mrs. Basil W. Duke.

**LASSOES HER DRUNKEN HUSBAND FOR POLICE.**

Because her husband, she says, was in an advanced state of inebriety when he came to his home at 324 Cabell street on Sunday night, threw a bottle at her and threatened to kill her, she lassoed him and called the police. Mrs. Ader then threw it around her spouse's arms and, losing his shaky foundation, he tumbled over the best of his wife. Mrs. Ader then tied him hand and foot. Mrs. Ader then called the police and they came. Broyles appeared and took Ader in tow, changing him with drunkenness and disorderly conduct.

Ader was presented in Police Court yesterday morning and fined \$3 and put under a bond of \$20 to keep the peace.

**FINE FOR STARTING ROW AT FONTAINE FERRY PARK.**

For creating a disturbance at Fontaine Ferry Park Sunday afternoon four boys, John Schitzer, Edward Stranz, John Miller and Alvin O'Bannon, were fined in Municipal Court yesterday morning. The fine of O'Bannon was suspended on condition of good behavior. Frank Drane will appear Friday to answer to a charge of carrying a concealed and deadly weapon and Walter Hall, another member of the party, will be tried for breach of the peace to-day.

On Sunday night Mr. McDowell seemed to be in poor health. He was fifty-nine years of age. The body will be removed to Simpsonville for burial to-morrow. **KIND OF AMUSEMENT**  
NOT SPECIFIED IN LEASE ON MARY ANDERSON THEATER.

Copy Filed At Courthouse—Rents Fixed On Rising Scale—With Arbitration When \$12,500 Is Reached.

The lease on the Mary Anderson Theater by the Shubert Theatrical Company from Peter Lee Atherton was filed yesterday in the County Clerk's office. Its terms do not specify the character of amusement to be given in the house.

The instrument is dated January 31, 1906, and provides the rental for the first and second years shall be \$10,000 per annum; for the third year \$11,500, for the fourth year \$12,000, for the fifth year \$12,500, from the sixth to the tenth year \$12,500. The annual rent for the remaining ten years of the twenty-year term shall be fixed by an arbitration committee, but shall never be less than \$12,000.

It is further provided that in the event the construction of the theater and dressing-room buildings the outlay should be more than \$10,000, then there should be added to the rent 6 per cent. on the difference. In the event the construction should fall below \$10,000 a reduction of 6 per cent. on the difference shall be allowed. Partial or complete destruction of the building by fire does not suspend the operation of the lease, but the lessor is given the privilege to rebuild as rapidly as possible. Should the rent be suspended three days the lease may be abrogated at the lessor's election in damages for lost time.

**DENIAL OF RUMOR**  
THAT DAISY LINE WILL STOP AT ELEVENTH STREET.

Denied By Representative of Company In New Albany—Nothing of the Sort Contemplated.

It is rumored that the Louisville and Northern Railway Company, operating the Daisy line between Louisville and New Albany, will discontinue the use of the tracks of the Short Route Railroad Company from Eleventh street to First street some time in June. The right of way from Eleventh street to First street is controlled by the Illinois Central Railroad Company. The right of way from Eleventh street to Thirty-first street is owned by the Louisville and Indiana Bridge Company. The report has it that the Daisy line will continue to run to Eleventh street and that some other arrangement for bringing passengers to the city will be made.

Mainly in view of the fact that the Louisville and Northern Railway Company in given street has been denied the right of the service of its line between Eleventh street and First street would be discontinue. He said the report was founded and that his company had given the Louisville and Southern Indiana.

**"BILL" MARTIN, AUTHOR OF NEW HORSESHOE GARDEN, NEAR FOURTH DISTRICT STATION**

Pride of Officers and Men, and Thing of Real Beauty—Meant As Surprise To Captain Krakel.

Wagon Guard "Bill" Martin, of the Fourth police district, a week ago displayed a heavy growth of whiskers. He walked into Capt. Andrew Krakel took his vacation to perform the rash act and the same day, in order to square himself with the men of the district, he started to work on a flower garden just west of the station-house in which, up till yesterday, he had planted ninety-six different kinds of flowers. All of the plants are doing nicely and one or two of the red geraniums have gone so far as to bloom.

The garden is the pride of every officer and patrolman in the Fourth. Even O'Brien approves of the idea except that he wanted a few radishes planted between the rows of flowers. To this "Bill" Martin objected on the ground that geraniums and radishes and other things wouldn't mix well and besides the garden wasn't intended for vegetables, anyhow.

The garden proper is in the shape of a horse shoe, to bring good luck to the district. "Bill" Martin says. Then to make the garden more attractive, he had the district guard hunt throughout the West End for four-leaf clovers. With these four-leaf clovers, several thousand in number, "Bill" formed the horse-shoe border of the garden.

Inside the horse shoe are the various small beds of flowers and radishes. The color scheme throughout, though, is green, much to the delight of Lieut. O'Brien, Stationkeeper O'Neil, Patrolman Moriarty and others. At the base of the

**Make a Bid on the Handsome Bailey Piano**  
IN OUR WINDOW.

It goes at your price! To the highest bidder on June 1.

Because of the unusual success of the unique sale of the Nixon Piano last week, and because so many were disappointed by failing to secure it, we have decided to offer this Bailey Piano on the same terms.

THIS PIANO SELLS FROM \$275 TO \$300, according to length of time of payments. It is a well-known Eastern make and carries a guarantee of 10 years from the manufacturer.

EXAMINE IT AND MAKE A BID. IT'S IN OUR WINDOW.

USE THIS COUPON.

**Selecting a Stove Very Important.**

In selecting a gas range, great care should be used to get the best, as with proper use it will last a lifetime. There are many good gas ranges now on the market, but it is not easy to call special attention to our "New Process," which has many desirable features not found on any other stove. You would like any kind of gas stove, but if you have used all the different kinds, you would prefer a "New Process" range. It is made in many styles and sizes to meet the demands of every kitchen. It is planned for convenience, the oven being the right size and height for baking. The top burners can be lifted out, leaving the top of the stove clear of obstruction for cleaning. The burners are scientifically constructed and will give the greatest amount of heat for gas consumed, and is consequently economical to use. Only the very best quality of workmanship and materials enter into its construction. All parts are made to wear or burn out, are made especially strong, making the stove very durable.
